2017 County Housing Profile

Clearwater County

3,539 households Northwest region

Access to safe, affordable homes builds a strong foundation for families and communities. But too many Minnesotans lack good housing options.

Mirroring the state trend, the cost of rent is rising far more guickly than renter income, making it increasingly challenging for renters to make ends meet.

RENTER HOUSEHOLDS

20% of all households

Median rent, 2000: \$468 Median rent, 2015: \$558

households pay more than 30 percent of their income toward housing costs, putting them at risk of being Countywide, 752 unable to afford basic needs like groceries, clothes, prescriptions and transportation. This includes 51% of seniors who rent and more than 73% of owners and 72% of renters who earn less than \$20,000 per year.

WAGES: Housing remains a challenge even for workers who are fully employed. The median earnings for most of the top in-demand and highgrowth jobs do not cover housing costs at an affordable level. Those working at the median wage – and especially those earning the minimum wage – cannot afford a two-bedroom apartment or the mortgage for a median-value home.

HOUSING STOCK: While a significant portion of the rental and owner-occupied housing is aging (built before 1960), new construction is not keeping up with demand. Of particular concern is the gap between the number of available units for extremely low income households – and the number of people who need them.
