2017 County Housing Profile

Wright County

45,064 households | Central region

Access to safe, affordable homes builds a strong foundation for families and communities. But too many Minnesotans lack good housing options.

Mirroring the state trend, the cost of rent continues to rise while renter income is declining, making it increasingly challenging for renters to make ends meet.

While home values are up, income for families who own their homes is down – and homeownership among young families is declining.

RENTER HOUSEHOLDS

-18%

Countywide, 10,569 households pay more than 30 percent of their income toward housing costs, putting them at risk of being unable to afford basic needs like groceries, clothes, prescriptions and transportation. This includes 60% of seniors who rent and more than 85% of owners and 83% of renters who earn less than \$20,000 per year.

TOTAL NUMBER of cost burdened households	10,569
Total # cost burdened RENTER households	3,389
Total # cost burdened OWNER households	7,180
Total # cost burdened SENIOR households	2,907

WAGES: Housing remains a challenge even for workers who are fully employed. The median earnings for most of the top in-demand and highgrowth jobs do not cover housing costs at an affordable level. Those working at the median wage – and especially those earning the minimum wage – cannot afford a two-bedroom apartment or the mortgage for a median-value home.

HOMELESSNESS: Across the state, homelessness has declined since 2012, but too many families, seniors and children in the Central region are still suffering the devastating consequences of having no place to call home.

787

Number of homeless CHILDREN 272

homeless SENIORS 61

HOUSING STOCK: While a significant portion of the rental and owner-occupied housing is aging (built before 1960), new construction is not keeping up with demand. Of particular concern is the gap between the number of available units for extremely low income households – and the number of people who need them.
