

Housing Affordability in Faribault County

May 2009

Minnesota Housing Partnership

Homes for all.

Housing is considered affordable if it consumes less than 30% of a household's gross income. At higher levels, families must choose between housing and other basic needs and will struggle to weather financial setbacks. For 2009, housing costs continue to consume a large portion of families' income, with substantial unemployment threatening Minnesotans.

The table above shows the number and percent of households in different income brackets that pay 30% or more of household income for rental or ownership costs. It illustrates that the **burden of housing costs weighs more heavily on lower-income families.**¹

Even before the current economic downturn, housing needs were severe. In 2007, 1 in 8 households spent at least half of their income on housing, up from 1 in 15 in 2000. **Minnesota experienced the fastest increase of extremely cost burdened households of any state in the nation during this time period.**²

In 2000, about 81.0% of Faribault County residents owned their home and 19.0% were renters. Of these, approximately 11.7% of homeowners and 22.0% of renters in Faribault County spent 30% or more of their household income on housing.³
