Affordable Housing in Le Sueur County

What is Affordable Housing?
Housing is considered affordable if it consumes 30% or less of a household’s gross income. Generally, when households spend more than 30% of their income to meet housing costs, they do not have enough income to meet other basic needs or weather financial setbacks.

The Supply of Affordable Housing Lags Demand
The current and projected unmet affordable housing need through the year 2010 in Le Sueur County is conservatively estimated at 1,245 low-income households.1

Lower Income Households Face Extreme Affordability Challenges
The table below shows the number and percent of households in different income brackets that pay over 30% of household income for rental or ownership costs. It illustrates that households with lower incomes spend more of their income on housing costs than those with higher incomes. According to the 2000 U.S. Census, the median household income for Le Sueur County was $45,933.

Le Sueur County Housing Costs
83% of Le Sueur County residents own their home and 17% are renters.2

Rental
- A household would need to earn $22,880 to afford the fair market rent for a two-bedroom apartment ($572/mo).3
- A minimum wage worker would need to work 72 hours per week to afford Le Sueur County’s fair market rent.5
