Affordable Housing in Martin County

What is Affordable Housing?

Housing is considered affordable if it consumes 30% or less of a household’s gross income. Generally, when households spend more than 30% of their income to meet housing costs, they do not have enough income to meet other basic needs or weather financial setbacks.

The Supply of Affordable Housing Lags Demand

The current and projected unmet affordable housing need through the year 2010 in Martin County is conservatively estimated at 1,225 low-income households. ¹

Lower Income Households Face Extreme Affordability Challenges

The table below shows the number and percent of households in different income brackets that pay over 30% of household income for rental or ownership costs. It illustrates that households with lower incomes spend more of their income on housing costs than those with higher incomes. According to the 2000 U.S. Census, the median household income for Martin County was $34,810.

Martin County Housing Costs

77% of Martin County residents own their home and 23% are renters.²

Rental

- A household would need to earn $20,760 to afford the fair market rent for a two-bedroom apartment ($519/mo).³
- A minimum wage worker would need to work 65 hours per week to afford Martin County’s fair market rent.⁵
- Approximately 27% of renters in Martin County pay over 30% of their household income on housing, and 12% of renters pay over 50%.⁶

Homeownership

- Between 1990 and 2000 home prices in Martin County rose 40% while incomes rose 6%.⁴
- A household would need to earn $25,003 to afford the median priced home ($78,900) in Martin County.⁶
- Approximately 13% of homeowners in Martin County spend over 30% of their household income on housing, and 5% spend over 50%.⁸
Homelessness in the Southeast Region

A one-day survey of people experiencing homelessness in Minnesota estimates that 8,800 Minnesotans are homeless and over 11,000 are precariously housed in temporary or unstable housing.9 Thirty-nine percent (39%) of these are children and youth.10

- On August 26, 2004, 297 people were sheltered in the Southeast Region, and an additional 129 were turned away because the shelters were full.11

The gap between the cost of housing and what people can afford is a major cause of homelessness.

- One-third of Minnesota’s homeless population cite the inability to afford housing cost as the primary reason for leaving previous housing.12
- Forty percent (40%) report being on the waiting list for Section 8, or other subsidized housing, while 16% are unable to get on the list because it is closed. The median wait time on a subsidized housing list exceeds 10 months.13

In 2003, 30% of all adults experiencing homelessness in Minnesota reported income from work, with 13% working full time.14

- 27% of surveyed adults experiencing homelessness in the Southeast Region are employed.15
- Of the adults experiencing homelessness in the Southeast Region who report being employed, 40% are employed full time.16

Other Important Martin County Housing Facts

- 11% of all Martin County residents and 15% of children under 18 live in poverty.17
