

A place to call home in Rock County

2015

Access to safe, affordable homes builds a strong foundation for families and communities. Yet even hard working Minnesotans often lack good housing options.

In Rock County, 6% of owner and 25% of renter households pay half or more of their income for housing, which places them at-risk for being unable to afford some of their basic needs.¹

RENTAL KEY TO VITALITY, BUT IN SHORT SUPPLY

For many, rental is the most sensible or preferred housing option. Seniors may not be able to manage owning a home. Many do not have the savings or credit to qualify for mortgages or are working to pay off debt. Workers relocating for jobs are also likely to need places to rent. **About 24% of households in Rock County are renters.²**

A safe, modest 2-bedroom apartment costs \$643 per month in Rock County.³ A family could affordably spend \$622 per month on rent at the median renter household income of \$24,875.⁴ By definition, half of the county's renters earn less than this median and need less expensive housing.

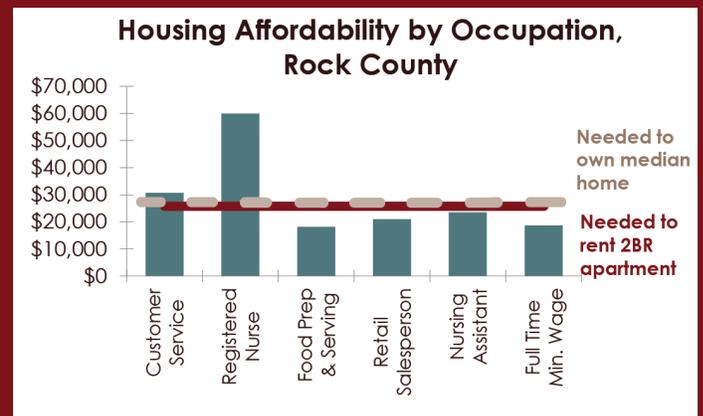

There are now **only 45 units affordable and available for every 100 extremely low-income renters in Rock County.**⁵ The county ranks 59 out of the state's 87 counties for the most units affordable/available.

In Rock County, 42% of rental homes were built before 1960.⁶ Aging rental housing stock often needs repair and can pose safety concerns.

RENTER INCOMES SLOW TO RECOVER

Despite recent improvements in the economy, renter incomes are still below 2000 levels in most Minnesota counties. According to the most recent data available for Rock County, renter incomes have fallen by 16% since 2000 while rents have risen by 13%, after adjusting for inflation.⁷

Wages for jobs in demand are often insufficient to cover the cost of housing.

The median earnings for the **TOP FIVE JOBS IN DEMAND** in Minnesota do not all cover actual housing costs, the chart above shows.⁸ Minimum wage workers also fall short.

For vacant positions in Rock County and counties nearby, the median hourly wage is \$14.35 for full time jobs, which corresponds to \$29,848 annually at 40 hours/week. Vacant part time jobs pay only \$10.48 per hour.⁹

At the new state minimum wage of \$9 per hour, an earner would have to work 55 hours per week to afford the \$643 fair market rent for a 2-bedroom apartment in Rock County, without paying more than 30% of income for housing.¹⁰

For some households in Rock County, housing consumes 30% or more of their income. **This can force lower-income people, especially, to forego other basic needs, such as food.**

Number of Households Cost Burdened¹¹

Household Income	Renters	Owners
Below \$20,000	293	236
\$20,00—\$34,999	60	235
\$35,000—\$49,999	14	85
Over \$50,000	0	72

New Construction

Building permits for 83 new housing units were issued in Rock County in 2009-14. Of these, 12 units were in multifamily buildings, which are likely to be for rental housing.¹² Rental construction has been limited across much of Greater Minnesota. In larger metropolitan areas, new rental construction has tilted towards more profitable higher-end units.

Owning a Home

76% of households in Rock County own a home.¹³

- In 2010, for white, non-Hispanic households, the county’s ownership rate was 79%, compared to 38% for households of color. **As a state, Minnesota has one of the largest racial homeownership gaps in the nation.**¹⁴
- 58% of owned homes in the county were built before 1960.¹⁵ Older homes often have a substantial need for repair.
- The median sales price for non-foreclosed homes in Rock County is about \$99,948, a real increase of about 6% since 2006.¹⁶

Minnesotans of all ages are affected by homelessness and unaffordable housing.

An estimated 14,000 Minnesotans were homeless on a given night in 2012. Homelessness increased by 32% statewide from 2006 to 2012.¹⁷

On that given night, 199 people were known to be homeless in the Southwest Region including:

- 86 children with their parents
- 22 youth 21 or younger living on their own
- 7 seniors aged 55+.¹⁸

Unstable housing can hinder children’s development and education.

About half of those experiencing homelessness in Minnesota are age 21 or younger.¹⁹ Homelessness can cause delays in growth and development, as well as problems in school. Housing subsidies have been linked with better nutrition and school success for poor children.

In 2013, 14% of children in Rock County were living in poverty, up from 10% in 2003.²⁰

More seniors face housing needs.

The number of seniors living in Minnesota is expected to grow as the Baby Boomer generation ages. In Rock County, between 2014 and 2030, the number of residents aged 65+ is expected to increase by about 44%; seniors will then make up 28% of the population.²¹

Unfortunately, housing cost burden, or paying 30% or more of income for housing, is a serious problem among seniors. Of the 1,146 senior-headed households in Rock County, about 53% of renters and 20% of owners are currently cost-burdened.²²

Seniors were also among the fastest growing segments of the state’s homeless population between 2009 and 2012.²³
